

## Circle of Life

Circle of life  
Our time has come  
To rise up  
Like flowers to the sun.  
We are One!

## Planetary Vision

I see myself and all beings living our highest potential here on earth. Through the inner healing of each and everyone of us, the outer healing of the planet is able to occur. Balance and harmony are restored in accordance with Universal laws, as above so is below, as within so is without.

As we heal, we become aware of the light and potential of our true essence. Thus, our awareness of the Universe expands, opening gateways for interdimensional inter-being and communication. The language of colors, tones and forms re-emerge and guides our unfoldment. We walk, talk, and be with open hearts, compassion and love. We are centered in unity, truth, unconditional love, joy and abundance!
